To Whom It May Concern:

I recommend Mr. Chris Fore of Eight Laces Consulting to you as an Expert Witness. He served my firm, McLeod Law Group (Charleston, South Carolina) in a case that involved a concussion injury of a student-athlete playing high school football. Mr. Fore served as an expert regarding the standard of care and return to play protocols associated with concussion injuries. This case was settled favorably on our client's behalf.

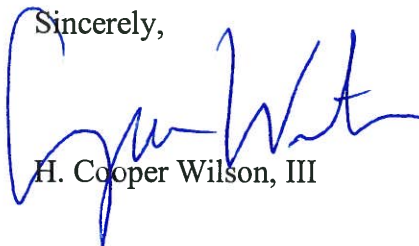

Our firm was impressed with the level of detail, the timely communication and the expert knowledge that Mr. Fore brought to our case. He helped us navigate the landscape of high school football best practices regarding concussion management and the national standard of care regarding the same. The background that he brought to our firm in both the world of high school football as well as athletic administration was just what we needed for this case.

I highly recommend Mr. Fore should you need an expert witness in the areas referenced above.

Please let me know if there are any questions that I can answer about Mr. Fore's work with our firm in this case.

With kind regards, I am

Sincerely,

H. Cooper Wilson, III
